

Project: PolicyPulse - Smart GDPR Assistant

RAG-based Question Answering System using Llama 3.3

Project Team

#	Name	Performance & Cooperation Feedback
1	Ahmed Amr Saleh Khalifa	Highly cooperative, executes all assigned tasks accurately and within the specified timeline.
2	Mahmoud Khamis Bilal	Highly cooperative, executes all assigned tasks accurately and within the specified timeline.
3	Hazem Mahmoud Abdelsalam	Highly cooperative, executes all assigned tasks accurately and within the specified timeline.
4	Badr Ahmed Taha	Highly cooperative, executes all assigned tasks accurately and within the specified timeline.
5	Rahaf Ehab	Highly cooperative, executes all assigned tasks accurately and within the specified timeline.
6	Rana Yasser	Highly cooperative, executes all assigned tasks accurately and within the specified timeline.

Project Evaluation & Feedback

- **Timeline Adherence:** The team demonstrated great discipline in delivering both code components and documentation according to the project milestones.
- **Collaborative Spirit:** A strong sense of teamwork was evident. Constant communication helped in solving technical hurdles and integrating the RAG pipeline with the Streamlit interface seamlessly.

- **Technical Proficiency:** The team successfully implemented advanced AI concepts, including Vector Databases (ChromaDB), Token-based Chunking, and a secondary Fact-Checking layer to eliminate hallucinations.
- **Responsiveness:** The members showed high flexibility in handling required modifications, ensuring the final output met professional technical standards.
